

Product ID . . . . . : 2A55DCR Dicer - Gumbo Software, Inc. Page 1  
 Release . . . . . : V2R1M0  
 As of . . . . . : 2018-08-15

PTF ID	Description	Status Date	Superseded By
2C10ALL	Cumulative PTF Package Last Updated 2018/08/15		
2C10001	PID Message File Updates <ul style="list-style-type: none"> <li>o Add new application messages to message file for future enhancement.</li> </ul>	10/09/17	
2C10002	PID Upgrade RTVGSIPTF Command <ul style="list-style-type: none"> <li>o Previously, the Retrieve Gumbo PTF (RTVGSIPTF) command downloaded PTFs using the FTP protocol. Now RTVGSIPTF uses HTTP. Additionally, RTVGSIPTF can access the PTF server through a proxy server, if required by your network, using the new PROXY() parameter.</li> </ul> <p>.</p> <p>We anticipate that some installations' networks will have problems accessing the PTF server over HTTP. On a temporary basis, RTVGSIPTF has introduced a PROTOCOL() parameter that allows you to switch back to the old FTP behavior while correcting problems with HTTP service. This parameter will ultimately be removed along with support for FTP as a transport mechanism.</p> <p>.</p> <p>COMPATIBILITY WARNING</p> <p>.</p> <p>HTTP is now the default protocol for PTF retrieval. If your network restricts HTTP access or if a proxy is required for HTTP access the RTVGSIPTF command will fail. If a proxy is required you must fill in the PROXY() parameter. Otherwise you will have to specify PROTOCOL(*FTP) while you resolve problems with HTTP access on your network.</p>	10/10/17	
2C10003	SPL Add PAGERANGE Single Value To MRGSPLF <ul style="list-style-type: none"> <li>o The Merge Spooled File (MRGSPLF) command's Merge input list (MRGFILE) parameter has been modified. Element 5 'Page range to print:' has been given a single value of *ALL which is the default. This avoids a command prompter problem that resulted in an incorrect command string that could not be reprompted.</li> </ul>	08/15/18
